[Total No. of Pages : 02

B.Tech. (Sem. - 1st/2nd)
ENGINEERING PHYSICS
SUBJECT CODE : PH - 101 (2K4 & Onwards)
Paper ID : [A0113]

[Note : Please fill subject code and paper ID on OMR]

Time : 03 Hours**Maximum Marks : 60****Instruction to Candidates:**

- 1) Section - A is **Compulsory**.
- 2) Attempt any **Five** questions from Section - B & C.
- 3) Select atleast **Two** questions from Section - B & C.

Section - A**Q1)****(Marks : 2 Each)**

- a) Explain the term time dilatation?
- b) What is the wavelength of He-Ne Laser, Semiconductor Laser?
- c) Explain the term permittivity.
- d) What is the significance of V-numbers in OFC's.
- e) Define the importance of doping in semiconductors.
- f) Explain the Isotopic effect in case of superconductors.
- g) Define LASERS.
- h) Explain the concept of ether.
- i) Plot the graphs for soft and hard superconductors.
- j) Differentiate between group velocity and phase velocity.

Section - B**(Marks : 8 Each)**

- Q2)** (a) Explain the significance of Maxwell's equations.
- (b) Explain the term current density and calculate the expression for it.

J-15 [8129]**P.T.O.**

- Q3)** (a) Differentiate between Step Index and Graded Index Fibers.
(b) Calculate the numerical aperture, acceptance angle and the critical angle of a fiber having core refractive index 1.5 and the cladding refractive index 1.45.
- Q4)** (a) Explain the working, construction and energy level diagram for Ruby laser.
(b) Explain the term spatial and temporal coherence.
- Q5)** (a) Differentiate between hard and soft magnetic materials.
(b) Mention some applications of Ferrite materials.

Section - C

(Marks : 8 Each)

- Q6)** (a) Explain Michelson Morley experiment and discuss its significance.
(b) Explain various postulates of Special theory of Relativity.
- Q7)** (a) Differentiate between hard and soft X-Rays.
(b) Define Wave function and calculate the expression for Time dependent Schrodinger Wave Equation.
- Q8)** Differentiate between photo electric effect and Compton effect and calculate the expression for Compton Shift.
- Q9)** (a) Explain BCS theory of superconductivity.
(b) Calculate the expression for penetration depth in superconductors.
